

Srivali High School®

Annual Report for the Academic Year 2018-19

Nurturing the future of rural India....Our Children, India's Future

Dear Sponsors, Supporters and Well- Wishers of Srivali High School,

Jai Shaṅkar!

As Sir William Haley ex- Editor and Director-General of the BBC, succinctly put it *“Education would be much more effective if its purpose was to ensure that by the time they leave school every boy and girl should know how much they do not know and be imbued with a lifelong desire to know it”*. At Srivali High School we follow this thought in practice.

The Academic Year 2018-'19 has been a highly inspiring year for all of us at Srivali School... for the Students, the School Teachers, the Administration and for the Trustees.

Thanks to the inspired efforts of the School Teachers and unstinted support from the School Administration including Ālekal mam, the Sponsors and with the Blessings of Parama Pūjya Swāmījī, the School has achieved a 97.27 % Pass result as against the State average of 71.93% and the Uttara Kannaḍa District average of 88.12%.

Achieving **above average** results both in the Academic and Extra- Curricular activities has become a standard benchmark for your School.

The Vocational Training Centre has also been performing extremely well. Students from the 8th and 9th standard learn new vocational skills such as Carpentry, Electrical and Plumbing work. So much so, that there are plans to set up a full- fledged ITI (Industrial Training Institute). Once these plans are finalised, we will keep you informed and seek your munificent support.

We delight in the beauty of the butterfly, but rarely admit the changes it has gone through to achieve that beauty -Maya Angelou ; We believe that the changes that we all go through in our lives constantly help to improve us. At Srivali School, our aim is to strengthen each child to successfully meet the challenges they face, not only in their academic or extra- curricular spheres, but we even try our best to mitigate to the best extent possible, the financial constraints through free education and free uniforms, books and a mid-day meal.

Thus one of the annual challenges we face is to ensure that every single child in the School is sponsored through donations. Substantial funds are also required for the maintenance of the existing School premises, and to meet the future requirements of the School.

We are extremely grateful to have received funds from our munificent Donors - Chitrāpur Heritage Foundation of USA, Koṅkaṇī Charitable Fund – USA, the Jayapriyā Foundation of Australia and numerous other Sponsors and sincerely look forward to continued and enhanced level of financial support. We also thank the Jayapriyā Foundation for sponsoring the Reward Scheme for Students in the SSLC Board exam.

We have an outstanding team of people working hard to make sure that Srivali High School becomes one of the top Schools at the District level and we have complete confidence that this will be achieved in the coming years.

I would like to take this opportunity to thank all my colleagues on the Board of Trustees, the Sponsors and Donors, the School Administration, the Senior Leadership team for their unstinted support and above all, Parama Pūjya Sadyojāt Shaṅkarāshram Swāmījī for His continuous Guidance and Blessings.

With warm personal regards,
Praveṇ Kaḍḍē

- In- house Teachers' meetings were held on 30th and 31st July, 2018 to conduct a 'Formative Assessment' for all the three Standards (8th, 9th & 10th).
(Formative assessment refers to a wide variety of methods that teachers use to conduct in-process evaluations of student comprehension, learning needs, and academic progress during a lesson, unit, or course. Formative assessments help teachers identify concepts that students are struggling to understand, skills they are having difficulty acquiring, or learning standards they have not yet achieved so that adjustments can be made to lessons, instructional techniques, and academic support.)

The general goal of formative assessment is to collect detailed information that can be used to improve instruction and student learning while it's happening. What makes an assessment "formative" is not the design of a test, technique, or self-evaluation, per se, but the way it is used—i.e., to inform in-process teaching and learning modifications).
